Nærmere om grunnlag for allokering av betalt skatt

For inneværende år (2022) benyttes estimat basert på noteinput/regnskap/etc

Det samme estimatet er grunnlag for oppgitt betalt skatt i kontantstrømanalysen (CF).

I november året etter regnskapsåret, fullføres en Country-by-Country rapportering.

Her summeres faktisk betalt skatt for hver juridiske enhet basert på offisielle selskapsregnskap/likningspapirer.

De offisielle selskapsregnskap og likningspapirer ferdigstilles lenge etter at konsernet har rapportert kontantstrøm, herunder betalt skatt.

Avvik mellom CF (fra februar påfølgende år) og CbC rapp (fra november påfølgende år) har ikke vært vesentlige (under 10 mill).

I oppstillingen ovenfor holder vi fast på offisielle tall fra CF, og allokere avviket til Norge
